

DIVYANSH SINGH

Python & AI Developer | Microservices Engineer

IIT Kanpur, Uttar Pradesh, India | +91 8439672625 | divyanshsingh843@gmail.com

LinkedIn - <https://www.linkedin.com/in/divyansh-singh-685607279/>

PROFESSIONAL SUMMARY

Python Developer with production experience building asynchronous microservices, REST APIs, and AI-integrated backend systems. Experienced with FastAPI, Django, Django REST Framework, Linux server administration, CI/CD, AI dataset preparation, model integration, and enterprise application development.

PROFESSIONAL EXPERIENCE

Python Developer | SkyAI Technologies, IIT Kanpur, Uttar Pradesh | Jan 2026 – Present

- Engineer asynchronous microservices using Python, FastAPI, and Pydantic for production systems.
- Build AI dataset pipelines covering data collection, cleaning, formatting, annotation, model training, and inference integration.
- Develop and deploy scalable REST APIs using Django and Django REST Framework.
- Customize ERPNext and Frappe modules, DocTypes, and business approval workflows.
- Manage Azure DevOps task tracking and sprint boards, maintain code in Azure Repos, and administer Linux cloud servers with NGINX.

EDUCATION

- B.Sc. (computer science)
Raja mahendra pratap singh state university Aligarh CGPA 6.4 | (2022 – 2025)

TECHNICAL SKILLS

Programming: Python, JavaScript, Java (OOP & DSA), SQL

Backend: FastAPI, Django, Django REST Framework, REST APIs, Microservices

AI & Data: AI Dataset Preprocessing, Model Training, AI Inference API Integration

DevOps & Cloud: Azure DevOps, Azure Repos, Linux Server Administration, NGINX, Docker, CI/CD

Databases & Caching: PostgreSQL, MariaDB, MySQL, Memcached

Enterprise: ERPNext, Frappe Framework

AI Tools: GitHub Copilot, Claude Code, ChatGPT, OpenAI Codex

PROJECTS

AI Model Training & FastAPI Microservice Engine

Github Link - <https://github.com/DivyaanshSingh843/ai-fastapi-microservice>

- Built a high-throughput FastAPI microservice engine for real-time AI model inference using custom preprocessed datasets.
- Implemented Pydantic request/response validation, asynchronous endpoints, and Docker containerization.

Nexus Inventory DRF API

Github Link - <https://github.com/DivyaanshSingh843/nexus-inventory-drf-api>

- Developed a full-featured inventory management REST API using Django REST Framework.
- Implemented JWT authentication, PostgreSQL persistence, and Memcached query caching.

Frappe Enterprise Procurement App

Github Link - <https://github.com/DivyaanshSingh843/frappe-enterprise-procurement-app>

- Built a procurement workflow application using Frappe and ERPNext.
- Implemented automated purchase requisitions, custom DocTypes, and role-based approval workflows.
